SUMMARY

Australia ranks 23 in the Open Data Inventory 2018 with an overall score of 68%. The overall score is a combination of a data coverage subscore of 57% and a data openness subscore of 78%.

Australia scores higher than the regional median for social and environmental statistics. Within the country, the highest levels of coverage and openness are on economic statistics and the lowest levels are on social statistics.

RECOMMENDATIONS

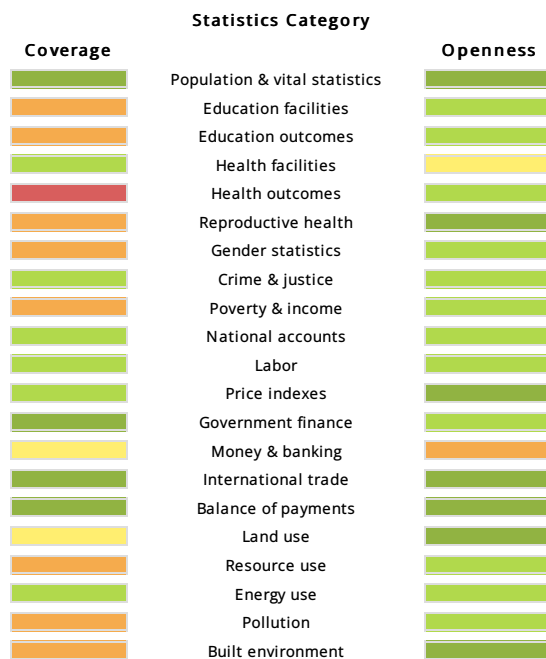

Coverage

- Collect and publish more recent data in environmental statistics.
- Collect and publish more historical data in environmental statistics.

Openness

- Publish more data in non-proprietary formats such as XLSX, CSV, or JSON.
- Make available download options for social and environmental data to allow users to customize data exports.
