Global	39%	56%	40%

SUMMARY

Ireland ranks 15 in the Open Data Inventory 2018 with an overall score of 72%. The overall score is a combination of a data coverage subscore of 58% and a data openness subscore of 84%.

Ireland scores higher than the regional median for economic and environmental statistics. Within the country, the highest levels of coverage and openness are on economic statistics and the lowest levels are on social statistics.
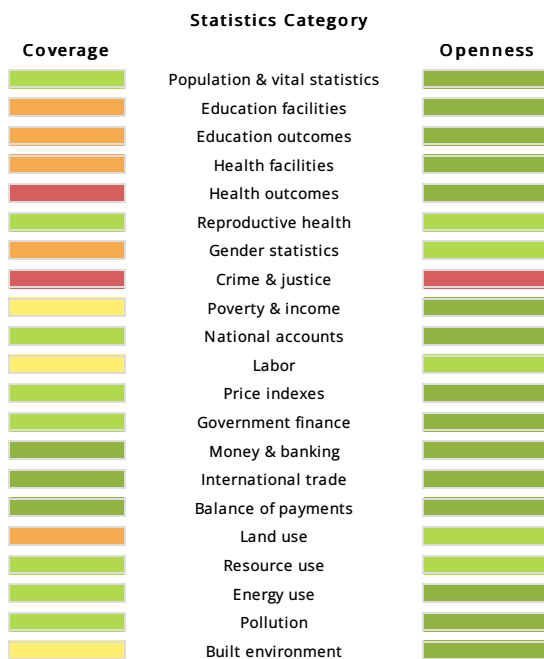

RECOMMENDATIONS

Coverage

- Collect and publish more historical data in social statistics.
- Collect and publish more data disaggregated at the first administrative level across all data categories.

Openness

- Publish more metadata to accompany data to increase its usefulness.
