SUMMARY

Singapore ranks 1 in the Open Data Inventory 2018 with an overall score of 86%. The overall score is a combination of a data coverage subscore of 67% and a data openness subscore of 100%.

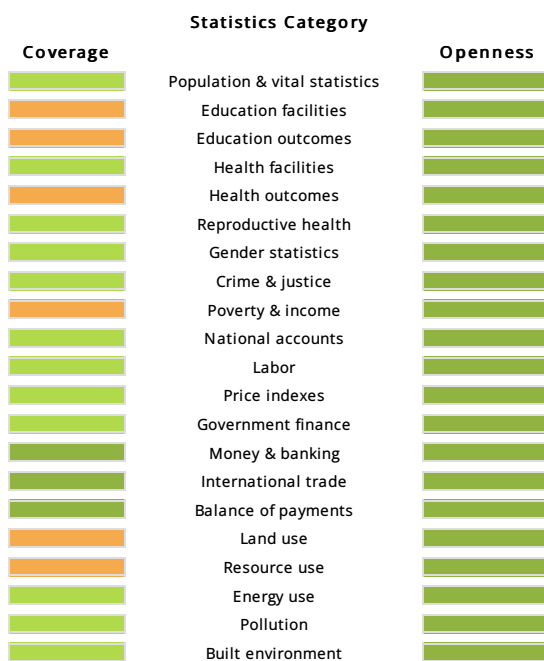

Singapore scores higher than the regional median across all three major data categories. Within the country, the highest levels of coverage and openness are on economic statistics and the lowest levels are on social statistics.

RECOMMENDATIONS

Coverage

- Collect and publish more data disaggregated at the first administrative level across all data categories.
- Collect and publish more data disaggregated at the second administrative level across all data categories.
